

11th Part final report of the Review Committee on Private Forest provisionally identified by North and South Goa Forest Division Committees (V. T. Thomas & F. X. Araujo Committees).

A committee (hereinafter referred as Review Committee”), to review provisionally identified Private Forest areas by North and South Goa Forest Division Committees (also known as Thomas & Araujo Committees was constituted vide Government of Goa Notification No. (WP)/Pvt. For/ 16(THC) / 2013(WZ)/ 19-20/26 dated 21/01/2020 (with Conservator of Forests as Chairman) and Vide Notification No. DCF (WP) /Pvt. Forest/16(THC)/ 2013(WZ)/ 19-20/ 119 dated 18/06/2020 (The Chief Conservator of Forests was made the Chairperson).

The Government of Goa has approved Ten Part Final Reports submitted by the Review Committee thereby disposing a total 2798 survey numbers out of 3349 (3195 survey numbers identified by Thomas and Araujo Committees plus 154 Survey numbers identified and excluded by Thomas and Araujo Committees) survey numbers provisionally identified by Thomas and Araujo Committees. All Ten Part Final reports were uploaded on the website of Goa Forest Department in compliance to the order of Hon’ble NGT.

An extensive ground verification, enumeration and survey exercise on survey numbers qualifying on area and canopy density criteria has been done in the field for evaluating species composition criteria.

A. Survey Numbers Identified as Private Forest by Sawant and Karapurkar committees and found partly repeated in Thomas & Araujo Committees:

There are 130 such survey numbers across 39 villages were found to be partly/fully repeated, out of which 88 have been found fully repeated and accordingly status was reported in the first Interim Report. Till 10th Part Final Report, a total of 105 survey numbers were reviewed by the committee.

       
ACF(N) ACF(S) AC(N) AC(S) DIR(DSLR) DIR (AGRI) DCF(WP) CCF

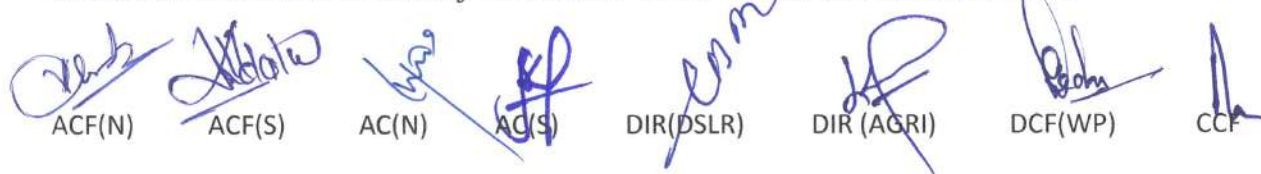

Further, the review committee has reviewed two more survey numbers during ensuing review meetings through details based on enumeration report submitted by the Divisions/sub-committees, detailed analysis of LISS IV Forest Cover Map (2014-15), Forest Survey of India through Google Timeline changes corroborated by LISS III FCM 2012-13, Division offence case, Tree Felling, FCA & Court order etc. was done. Also, an additional area is found in the survey number i.e. 328 of Loliem village of Canacona Taluka that was reviewed and submitted in the IVth Part Final After detailed evaluation, deliberations and discussion on each report, the decision of the committee on these Survey Numbers is enclosed as **Annexure I**.

Thus, a balance of 23 survey numbers is still to be reviewed by the committee.

B. Survey Numbers identified as Private Forest by earlier demarcation team of the Forest Department (adjoining the Survey Nos. identified as Private Forest by Sawant and Karapurkar Committee) and found partly repeated Thomas & Araujo Committee:

The Review Committee had found that out of total of 39 Survey numbers, adjoining Survey Nos of Sawant and Karapurkar Committee which were demarcated as Private Forests by earlier demarcation team of Forest Department during 2003-2008 were found fully/partly repeated in Survey Numbers identified by Thomas and Araujo Committee. Till 10th Part Final Report, 23 survey numbers were reviewed by the committee.

Now, the review committee has reviewed six more survey numbers during ensuing review meetings through details based on enumeration report submitted by the Divisions/sub-committees, detailed analysis of LISS IV Forest Cover Map (2014-15), Forest Survey of India through Google Timeline changes corroborated by LISS III FCM 2012-13, Division offence case, Tree Felling, FCA & Court order etc. was done. After detailed evaluation, deliberations and discussion on each report, the decision of the committee on these Survey Numbers is enclosed as **Annexure II**.

ACF(N) ACF(S) AC(N) AC(S) DIR(DSLR) DIR (AGRI) DCF(WP) CCF

Thus, a balance of 10 survey numbers is still to be reviewed by the committee.

C. Survey Numbers recorded as Government Forests and Found mention as Private Forest by Thomas and Araujo Committees:

There is a total of 26 survey numbers recorded as Government Forest, have been identified as Private Forest by Thomas & Araujo Committee in its report. Till 9th Part Final Report, committee had reviewed and identified 20 survey numbers.

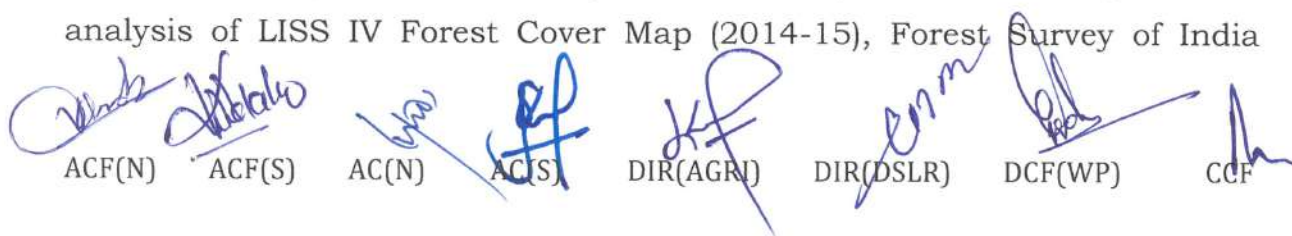

Further, the committee have reviewed another 5 Survey numbers which are recorded as government forest and found that Four survey numbers i.e. 65 & 141 of Cola village, 23 of Padi village, 18 of Santana village are unclassified forest and 51 of Curpem village is Proposed Reserved Forest. Accordingly, committee recommended to take it on record. The details are enclosed as **Annexure III**.

Thus, balance One survey number is to be considered and reviewed by following the methodology approved by State Government.

D. Survey numbers which were provisionally identified and excluded by Thomas and Araujo Committee in its report

There were a total 154 survey numbers including sub division were identified by the Thomas and Araujo committee, which were subsequently excluded in their final report. All those survey numbers were digitized and analyzed in detail by the review committee. Till 10th Part Final Report 115 survey numbers were reviewed by the committee.

Subsequently 2 survey numbers were reviewed by the review committee during ensuing review meetings through details based on enumeration report submitted by the Divisions/sub-committees, detailed analysis of LISS IV Forest Cover Map (2014-15), Forest Survey of India

ACF(N) ACF(S) AC(N) AC(S) DIR(AGRI) DIR(DSLR) DCF(WP) CCF

through Google Timeline changes corroborated by LISS III FCM 2012-13,

Division offence case, Tree Felling, FCA & Court order etc. was done. After detailed evaluation, deliberations and discussion on each report, the decision of the committee on these Survey Numbers is enclosed as **Annexure IV**.

Thus, a balance of 37 survey numbers is still to be reviewed by the review committee.

E. Report based on Enumeration results of survey numbers fulfilling area and canopy criteria

The Review Committee has reviewed the survey numbers qualifying as private Forests based on enumeration report submitted by the Divisions/sub-committees, detailed analysis of LISS IV Forest Cover Map (2014-15) Forest Survey of India through Google Timeline changes corroborated by LISS III FCM 2012-13, Division offence case, Tree Felling, FCA & Court order etc. was done and conducted the hearing of objections/representations. After detailed evaluation, deliberations and discussion on each report, the decision of the committee on these Survey Numbers is enclosed as **(Annexure-V)**.

Partial area is found to qualify private forest criteria in survey number which had already been finalised in 4th Part Final Report by review committee II. The survey number 203 of Verna village Salcete taluka was mentioned as "The area does not qualify the criteria of private forest" in 4th Part Final report by RC II. However, during the review and ground verification of adjacent survey number 200 of Verna village of Salcete taluka, it is seen that though the survey number 203 was not qualifying in isolation, the same forms a contiguous patch qualified as private forest area of more than 5Ha with the survey number 200 and qualifies for the criteria of private forest. Hence, the same is now identified as private forest by the Review Committee.

 ACF(N)  ACF(S)  AC(N)  AC(S)  DIR(DSLR)  DIR (AGRI)  DCF(WP)  CCF

In case of non-qualifying survey numbers based on enumeration report submitted by the Divisions/sub-committees, detailed analysis of LISS IV Forest Cover Map (2014-15) Forest Survey of India through Google Timeline changes corroborated by LISS III FCM 2012-13, Division offence case, Tree Felling, FCA & Court order etc. was done. After detailed evaluation, deliberations and discussion on each report, the decision of the committee on these Survey Numbers is enclosed as **Annexure VI**.

Summary of the Report

- i) Till date, the review committee has reviewed and prepared Eleven Part Final reports disposing total 3052 survey numbers out of total 3349 (3195 survey numbers provisionally identified by Thomas and Araujo Committees plus 154 Survey numbers provisionally identified and excluded by Thomas and Araujo Committees) provisionally identified by North Goa and South Goa Forest Division committees (also known as Thomas and Araujo Committees).
- ii) The Eleventh-part final report is prepared after reviewing and disposing **254(+4)*** Survey Nos (* additional area is found in four survey numbers which had already been reviewed by RC II in its previous part final report and now since additional area of 114.635 Ha is found qualifying in these four survey numbers), thus totalling review work to 3052 out of 3349 (3195 survey numbers identified by Thomas and Araujo Committees plus 154 Survey numbers identified and excluded by Thomas and Araujo Committees).

Details of such survey numbers reviewed and disposed are submitted to the Government as indicated in the Annexures, summary of which is reproduced below.
